

Model 88 / 90 Common Specifications

Engine:	Four cylinder L Head, 134 cu in, governed to 2,000 RPM			
Horsepower:	Maximum belt - 40 @ 2,000 RPM Drawbar - 25 HP, 2 bottom 14" plow capacity			
Drive train:	Transmission and Transfer case providing 6 speeds forward and 2 reverse			
Power Take-off:	Three speeds and reverse with belt pulley at rear			
Governor:	Variable Speed, NOVI, 400 – 2,000 RPM			
Wheels:	Front – 4" x 16" with 5:50-16 single & three rib pneumatic tire Rear – 8" x 24" with 24" traction tread pneumatic tire			
Brakes:	Individual clutch-type on each drive axle			
Dimensions:	Wheel base	76.5"	Turning radius	16'
	Ground clearance	23"	Height	65"
	Ship weight	2,450 lbs	Tread	50 – 58"
	Length	110' long	Width	61"
Capacities:	Cooling system	4 US Gallons	Fuel tank	7 US gallons
	Final drive & crank case	6 US quarts		
Standard Equip.:	Toolbox, front head lights, rear light, amp gauge, temperature gauge, oil pressure gauge, governor, oil filter and Equa-Pull drawbar.
